MEMORANDUM FOR GENERAL CARTER

As indicated in John Warner's memorandum, the draft of this SIC study on Soviet science and technology considered by USIB on 23 May included notice that it would be distributed to "certain Committees of Congress". Specific attention of USIB was invited by the Secretariat to this proposed special distribution on 15 May when the study was initially circulated to Board members for review.

It is considered, therefore, that the Intelligence Board approved distribution to Congressional Committees and other U. S. non-intelligence groups when at the 23 May meeting it approved the Summary and Conclusions and formally noted the Discussion and Appendices portions of the study. Accordingly, further USIB action on this distribution is not required, other than the implementing measure recommended by the Legislative Counsel in his memorandum.

The Secretariat concurs also in the recommendation that references to NIE 11-6-59 and NIE 11-6-52 be deleted from the study since we understand that those estimates have not been released to any Congressional Committee.

25X1
Acting Executive Secretary, USIB

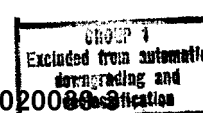

cc: Mr. John Warner
